Kevin has experience in the logistics and supply chain industry and as well as in the retail and service industry. Kevin is helping to drive CloudLogix's growth and profitability.*

Grapevine, Texas ([PRWEB](#)) August 28, 2012 -- CloudLogix, foremost provider of cloud-based Synchronized Resource Planning (SRP) solutions, announced the strategic expansion of its team with the addition of Kevin Cagney, Product Development Manager at the Global Headquarters located in Grapevine, Texas. Kevin has experience in the logistics and supply chain industry and as well as in the retail and service industry. Kevin is helping to drive CloudLogix's growth and profitability.

CloudLogix builds tools that enable software companies, IT departments or supply chain organizations to incorporate Software-as-a-Service and advanced analytics into their products. When companies need the basic products, CloudLogix has products that use the tools to build modern, active supply chains.

Kevin comes to CloudLogix from Wildernest Logistics Solutions, an Aurora, Colorado based supply chain solutions corporation where he served as the International Operations Manager in the Dallas, Texas office. He successfully developed strategic plans for maximizing efficiencies within the department and managed day to day operations.

In his current role at CloudLogix, Kevin will help drive design and development of CloudLogix's comprehensive suite of ERP and SRP cloud based Software-as-a-Service (SaaS) solutions. His tasks include: project management and tracking, ideation and idea guidance, Intellectual Property (IP) management, research into emerging technologies and product performance requirements.

Rob Langhorne, CEO of CloudLogix, commented "The role of Product Development Manager reaffirms CloudLogix's commitment to offering a full service package for our customers." He continued "With new product innovations and market expansions on the horizon, Kevin will assist to ensure CloudLogix's lead in the SRP field."

### **About CloudLogix**

Since our beginnings in 2008, CloudLogix has grown to be a provider of Business Intelligence/Analytics tools and Supply Chain Management applications delivered as Software-as-a-service. The tools work together to complete an informational loop in logistics processes; cycling validated logistics data to the intelligence/analytics tools and returning business decision data to the supply chain for execution by the suppliers and service providers.

The power of our company comes through our patent-pending toolset's ability to integrate to existing enterprise IT infrastructure and allow the system to efficiently adapt to the constant changes in the demand/supply chain. We provide solutions for thousands of users in 14 countries, and every month, we are growing.
