

CloudLogix Announces Reseller Agreement with Supply Needs, LLC

CloudLogix, foremost provider of cloud-based Synchronized Resource Planning (SRP) solutions, announced that it has signed a reseller agreement with Supply Needs LLC, a Service-Disabled Veteran Owned Small Business that provides software solutions to defense and commercial industries.

Grapevine, TX ([PRWEB](#)) May 08, 2013 -- CloudLogix, foremost provider of cloud-based Synchronized Resource Planning (SRP) solutions, announced that it has signed a reseller agreement with Supply Needs LLC, a Service-Disabled Veteran Owned Small Business that provides software solutions to defense and commercial industries.

The reseller agreement will enable Supply Needs defense and military clients the ability to improve their business performance by utilizing CloudLogix's software solutions to better manage their supply chains. CloudLogix builds tools that enable software companies, IT departments or supply chain organizations to incorporate Software-as-a-Service and advanced analytics into their products. CloudLogix has products that build modern, active supply chains.

"We are pleased that Supply Needs has made a commitment to offer our SRP solutions to their customers," stated Rob Langhorne, CEO of CloudLogix. "Their supply management knowledge, coupled with their expertise in Military Logistics will enable them to leverage the power of our products to offer their customers better solutions."

Supply Needs, located in Charlotte, North Carolina, provide logistic software solutions to a targeted customer database including U.S. Military, state and local governments and commercial companies. Working to provide unique solutions centered around the client's business plan and model, Supply Needs delivers a one-stop-shop in logistics consulting and solutions.

About CloudLogix

Since its beginnings CloudLogix has grown to be a provider of Business Intelligence/Analytics tools and Supply Chain Management applications delivered as Software-as-a-Service. The tools work together to complete an informational loop in logistics processes; cycling validated logistics data to the intelligence/analytics tools and returning business decision data to the supply chain for execution by the suppliers and service providers.

The power of the company comes through its toolset's ability to integrate to existing enterprise IT infrastructure and allow the system to efficiently adapt to the constant changes in the demand/supply chain. CloudLogix provides solutions for thousands of users in 14 countries, and every month, the company is growing. Visit www.cloudlogix.com to learn more.
